PT-5910 Fanless Touch Terminal

In today's economic climate, Partner Tech fully understands the needs for businesses to find cost effective solutions without giving up quality, reliability, and efficiency to successfully run their business. Always listening to our customers and working to accommodate future trends, Partner Tech developed the new PT-5910 POS Terminal for business owners looking for a practical, cost effective POS solution that still holds true to the highest standards Partner Tech has become known for.

The PT-5910 uses the latest ATOM technology to ensure a high processing performance for its users. At the heart of the PT-5910 is a top-rated and energy-efficient Dual Core ATOM D525 CPU. With the aluminum rear cover design to achieve heat dissipation, PT-5910 is fanless and offers more reliability. Combined with high processing speed, this space saving POS terminal packs a mighty punch!

Staying true to Partner Tech tradition, the PT-5910 was designed from the ground up with all the versatility and expansion options that Partner Tech builds into all of its terminal standard. Up to 90 degrees of touch panel monitor tilt, spill resistant design for harsh environments, rear customer display, dual display support and various reader options, the list goes on and on for the PT-5910's versatility.
